Kitchen Design

I specialize in modern and functional kitchen design that elevates both style and usability. Whether you're remodeling or building new, I create layout plans, select materials, and guide you in designing a kitchen that feels beautiful, spacious, and perfectly organized.

What's Included

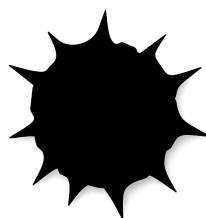

- Custom kitchen layout planning
- Cabinet style & finish selection
- Countertop materials (quartz, granite, stone)
- Backsplash and tile selection
- Flooring recommendations
- Lighting & hardware guidance
- 3D visual concepts (optional)

Milaboy

Co-founder and CEO at PNW floor and design llc

About Me

I began my design career in 2022 as a Kitchen & Bathroom Designer intern. During this time, I learned space planning, cabinetry layouts, countertop selection, tile design, and flooring materials.

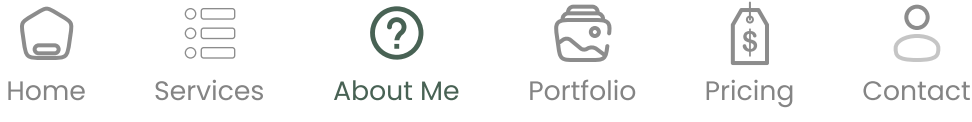

I later worked at Home Depot and Floor & Decor, where I developed strong skills in tile design, flooring options, bathroom layouts, shower design, and full residential project coordination.

I am also completing a UX/UI Digital Design program, which helps me create user-friendly and modern digital experiences. This allows me to connect design, functionality, and customer needs in a professional way.

About My Business – PNW Floor Design LLC

I have officially built this business over the last year, after working several years in the flooring and remodeling industry.

So far, I have served 250+ customers, and many have praised my work — especially tile design, heated floors, bathroom renovations, and exotic

personality nature.

- Design
- Material selection
- Customer communication
- Project coordination

I do not have formal business partners — every project receives my direct attention and guidance.

What I Specialize In

- Tile design
- Flooring design (wood, LVP, laminate)
- Bathroom layout & shower design
- Heated floor systems
- Full-house remodel design
- Material selection and purchasing
- Project management & installer coordination

Recent Project Experience

Recently, I completed a full-house remodel for a family (private details not shared):

- Designed 3 bathrooms with heated tile floors
- Completed a heated basement floor
- Planning upstairs hardwood installation
- Selected all materials (tile, flooring, heated systems)
- Managed purchasing, invoices, and tax-exempt forms
- Coordinated with installers
- Handled layouts, timelines, and project communication

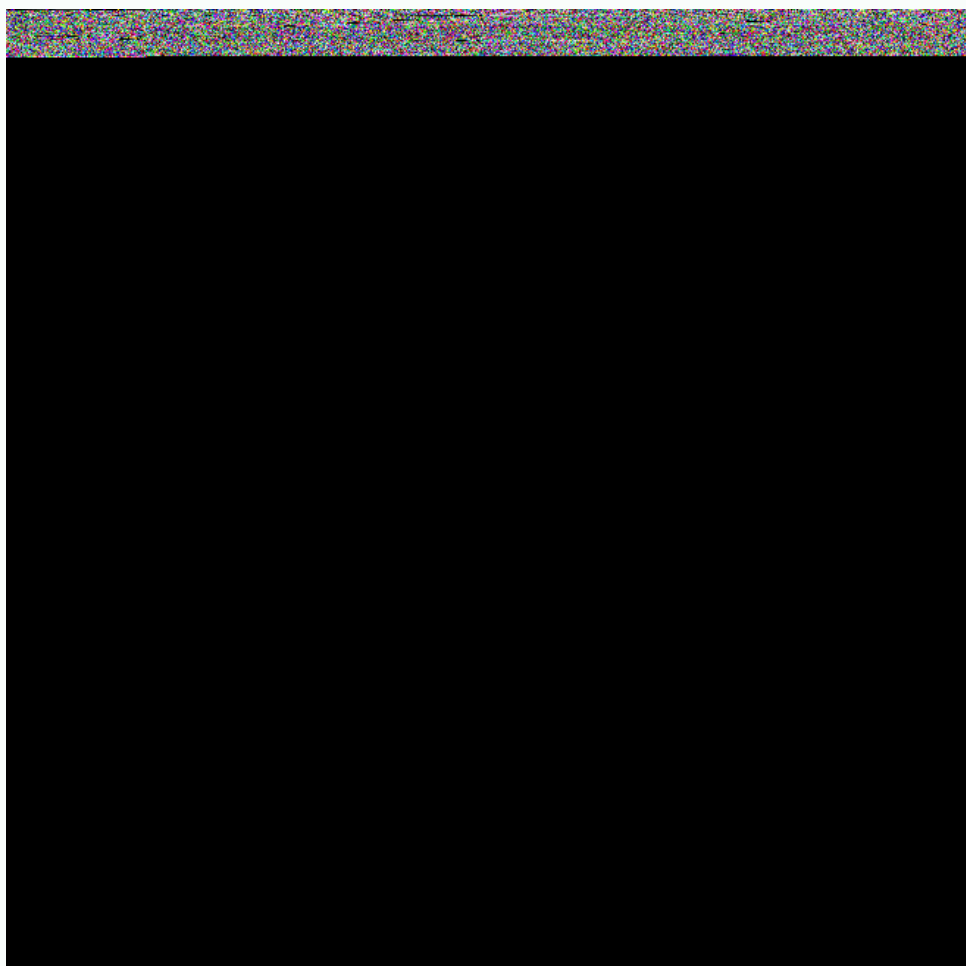

The full remodel progressed in less than 4 weeks because I managed both design and project coordination efficiently.

I also worked with a custom home builder on flooring and carpet installations, guiding materials and design direction for multiple properties.

Why Clients Trust Me

- Proven experience with 250+ satisfied homeowners
- Strong background in design + project execution
- Ability to manage remodeling projects from start to finish
- Focus on quality, communication, and fast turnaround
- Professional knowledge of materials, layouts, and installation processes
